Subject index

Accommodation
adrenergic pharmacology, tonic accommodation, phenylephrine, thymoxamine, ciliary muscle, sympathetic nervous system, human 267
arterial pulse, infra-red optometer, human 971
refraction, macaca mulatta, macaca fascicularis, anesthesia, tonic accommodation, monkey 525
vergence of light, color, blur, VDUs, human 935
Adenylate cyclase
ciliary processes, dopamine, forskolin, clonidine, α_2- adrenergic receptors, aqueous humor formation, rabbit 111
neuropeptide Y, ciliary processes, adrenergic receptors, aqueous humor formation, clonidine, forskolin, isoproterenol 121
Adrenergic pharmacology
accommodation, tonic accommodation, phenylephrine, thymoxamine, ciliary muscle, sympathetic nervous system, human 267
ciliary epithelium, membrane transport, intracellular electrical potential, microelectrode, rabbit 1
drug delivery, AGN 190342, p-aminoclonidine, clonidine, rabbit 1051
Ageing
cornea, inflammation, phagocytosis, inflammatory cells, mice 129
AIDS
CMV retinitis, simian immunodeficiency virus (SIV) 759
Aldose reductase
lens, aldose reductase inhibitors, inhibition of sugar alcohol 421
Angiotensin
norepinephrine, iris-ciliary body, sympathetic nerves, rabbit 169
Antibiotics
corneal epithelium, wound healing, tobramycin, gentamicin, ofloxacin, tissue culture, rabbit 277
Antioxidants
corneal endothelium, oxidative damage, vitamin E/C, alpha tocopherol, ultrastructure, isolated cornea, rabbit 103
Aqueous humor
intraocular pressure, vasoactive intestinal polypeptide, α-adrenoceptor, uveoscleral outflow 863
wound healing, growth factors, transforming growth factor-α, human 963
Arachidonic acid
cornea, 12(R)-HETE, cytochrome P450, Na^+-K^+-ATPase, arginine vasopressin, rabbit 661
Ascorbic acid
copper, corneal endothelium, toxicity, cell culture, bovine 177

Blood flow
retina, retinal pathology, choroidal blood flow, Müller cells, GFAP, Edinger-Westphal, pigeon 583
Blood vessels
endothelial cells, retina, choroidal endothelium, choroidal pericytes, choriocapillaris, age-related macular degeneration, bovine 631
retina, vasculature, retinal development, spindle cells, endothelium, astrocytes, kitten 459
Blood-aqueous barrier
ciliary epithelium, prostaglandins, sympathetic nerves, α-adrenergic receptors, norepinephrine, fluorophotometry, rabbit 927
Blood-retinal barrier
diabetes, retina, vitreous humor, mannitol, para- aminophippuric acid, rat 827

Calcium
calmodulin, gap junctions, lens, rat 533
taurine, retina, membrane transport and permeability, taurine analogues, ATP-dependent calcium ion uptake, rat 1147
Calmodulin
calcium, gap junctions, lens, rat 533
Calpain
calpastatin, corneal epithelium, wound healing, cornea, rabbit 39
Carbonic anhydrase
glaucoma, intraocular pressure, MK-927, topical carbonic anhydrase inhibitor, glaucomatous monkey 163
intraocular pressure, glaucoma, carbonic anhydrase inhibitors, L-671, 152, MK-927, rabbit, monkey 607

Cataract
inflammation, vitrectomy, extraction, lensectomy, extracapsular lens, rabbit 1137
inositol phosphates, lens, myoinositol, hypergalactosemia, sugar cataract, cultured lens epithelial cells, bovine 561
lens, glutathione, naphthalene, γ-glutamylcysteine synthetase, glutathione synthetase/peroxidase/reductase, HPLC, rat 45
lens, lens proteins, insolubilization, U18666A, rat 805
lens, lens proteins, lens protein deamidation, human cataract 793
lens, membrane proteins, limited proteolysis, galactose, sugar cataract, lens plasma membranes, rat 225
lens, selenium, DNA, rat 1041
lens, ultraviolet irradiation, protein synthesis, growth, lens epithelium, rabbit 1099
pattern recognition, classification, Scheimpflug photography, human 517
Ciliary processes
adenylate cyclase, dopamine, forskolin, clonidine, α_2- adrenergic receptors, aqueous humor formation, rabbit 111
adenylate cyclase, neuropeptide Y, adrenergic receptors, aqueous humor formation, clonidine, forskolin, isoproterenol 121
adrenergic pharmacology, membrane transport, intracellular electrical potential, microelectrode, rabbit 1
blood-aqueous barrier, prostaglandins, sympathetic nerves, α-adrenergic receptors, norepinephrine, fluorophotometry, rabbit 927
G proteins, non-pigmented/pigmented ciliary epithelial cells, cholera toxin, ADP-ribosylatin, immunotransfer (Western) blotting, peptide-derived G protein antisera, human 493
membrane transport and permeability, bicarbonate, DIDS, electrical potential difference, rabbit 233
membrane transport and permeability, malonate, intracellular potential difference, succinate, Na^+:K^+ pump, rabbit 787
neuropeptide Y, cyclic AMP, somatostatin, peptide receptors, adenylate cyclase, rabbit 371
uveitis, prostaglandins, inflammation, endotoxin, interleukin-1, tissue culture, bovine 501
Collagen
cell culture, proteoglycans, glycosaminoglycans, microvascular endothelial cells, extracellular matrix, basement/epiretinal membrane, retinal pigment/lens epithelial cells 307
Contact lenses
hydrogel, hydration, dehydration, nuclear magnetic resonance spectroscopy 697
Pseudomonas aeruginosa, keratitis, infectious keratitis, hydrophobic interactions, contact lens surface deposits, enzyme cleaning of contact lenses 717
Contrast sensitivity
Myopia, spectacles, contact lenses 217
Copper
ascorbic acid, corneal endothelium, toxicity, cell culture, bovine 177
Cornea
ageing, inflammation, phagocytosis, inflammatory cells, mice 129
arachidonic acid, 12(R)-HETE, cytochrome P450, Na^+-K^+- ATPase, arginine vasopressin, rabbit 661
bovine corneal protein 54K 1217
calpain, calpastatin, corneal epithelium, wound healing, rabbit 39
corneal endothelium, corneal transplantation, microcarrier cell culture, *in vitro* senescence, enzymatic passaging, subculture, human 23
corneal surface, corneal epithelium, morphometry, scanning electron microscopy, rabbit 295
corneal transplantation, corneal endothelium, penetrating keratoplasty, corneal endothelial morphology, specular microscopy, Eisner contact glass, cat 445
diabetes, diurnal variation, corneal thickness, age, rabbit 451
glucose distribution, intracorneal lens, implant 1025
glutathione, cysteine metabolism, organ-cultured cornea, radioactive cysteine, HPLC, rat 883
growth factors, DNA synthesis, FGF, corneal epithelium, cell proliferation, corneal cell culture, rabbit 429
herpes simplex virus, iontophoresis, vanadate, latency, rabbit 1015
inflammation, neutrophil chemotaxis, hydrogen peroxide, glucose oxidase, rabbit 839

inflammation, neutrophil chemotaxis, UV-B irradiation, inflammatory mediators, rabbit 677
keratitis, pneumococcus, PMN, virulence, complement, rabbit 1107
lipids, ^{31}P NMR, phospholipid 1167
lipids, neutral, glycosphingolipids, isolation, characterization, porcine 337
major soluble protein, amino acid sequencing, peptide mapping, V8 protease, bovine 781
proteoglycans, macular corneal dystrophy, collagen, synchrotron X-ray diffraction, human 393
retinoids, morphology, thymidine, stroma, DNA synthesis, rabbit 1121
wound healing, cytoskeleton, electric field, corneal stroma, fibroblasts, cell migration, rabbit 893

Corneal endothelium
antioxidants, oxidative damage, vitamin E/C, alpha tocopherol, ultrastructure, isolated cornea, rabbit 103
copper, ascorbic acid, toxicity, cell culture, bovine 177
corneal transplantation, cornea, microcarrier cell culture, *in vitro* senescence, enzymatic passaging, subculture, human 23
corneal transplantation, cornea, penetrating keratoplasty, corneal endothelial morphology, specular microscopy, Eisner contact glass, cat 445
growth factors, wound healing, cornea, *in vivo*, cat 509
lectin binding, endocytosis, ferritin, rabbit 249
wound healing, endothelial permeability, feline 1129

Corneal epithelium
calpain, calpastatin, wound healing, cornea, rabbit 39
keratitis, herpes simplex virus, Epstein-Barr virus, cytomegalovirus, PCR, human 569
membrane transport and permeability, lactate-proton cotransport, intracellular pH, rabbit 707
serum-free cell culture, rabbit 919
stress proteins, heat shock protein, hyperthermia, immunocytochemistry, in situ hybridization, rat 913
wound healing, antibiotics, tobramycin, gentamicin, ofloxacin, tissue culture, rabbit 277

Corneal transplantation
cornea, corneal endothelium, penetrating keratoplasty, corneal endothelial morphology, specular microscopy, Eisner contact glass, cat 445
corneal endothelium, cornea, microcarrier cell culture, *in vitro* senescence, enzymatic passaging, subculture, human 23
indomethacin, cyclosporin A, dexamethasone, BW7557, heterolamellar transplant, rabbit 749

Crystallins
enolase, lens, avian, turtle 139
lens, alpha crystallin binding, lens membrane, bovine 259
lens proteins, lens protein structure, metabolite binding, molecular modelling, γ-crystallin structure, α- glycerophosphate, bovine 819
protein synthesis, lens, α-crystallin, cell line, phosphorylation, transgenic 31

Cyclic AMP
neuropeptide Y, ciliary processes, somatostatin, peptide receptors, adenylate cyclase, rabbit 371

Cyclic GMP
retina, photoreceptors, cGMP-binding proteins, cGMP-phosphodiesterase, +/rd mice 643

Cyclic nucleotides
rhodopsin regeneration, electroretinogram, cGMP, phototransduction, postmortem survival, retina, human/rat 151

Cytoskeleton
lens, fiber cell, alpha-actinin, monoclonal antibodies, bovine 873
lens, intermediate filaments, beaded filaments, lens proteins, bovine 1083
wound healing, cornea, electric field, corneal stroma, fibroblasts, cell migration, rabbit 893

Diabetes
blood-retinal barrier, retina, vitreous humor, mannitol, para-aminophippuric acid, rat 827
cornea, diurnal variation, corneal thickness, age, rabbit 451

Dopamine
adenylate cyclase, ciliary processes, forskolin, clonidine, α_2-adrenergic receptors, aqueous humor formation, rabbit 111
electrophysiology, retina, light peak, standing potential, EOG, chicken 1077

Drug delivery
adrenergic pharmacology, AGN 190342, p-aminoclonidine, clonidine, rabbit 1051
collagen shields, 5-fluorouracil, glaucoma filtration surgery, biodegradable 653
tears, gelling vehicle, Gelrite™, hydroxyethylcellulose, gamma scintigraphy, precorneal residence, human/rabbit 415

Drug toxicity
inflammation, povidone-iodine, intravitreal, polyvinylpyrrolidone, rabbit 725

Electrophysiology
dopamine, retina, light peak, standing potential, EOG, chicken 1077

Electroretinogram
retina, laser, retinal photocoagulation, monkey 435
retinal pigment epithelium, retina, hemicholinium-3, outer segment loss, rabbit 669
rhodopsin regeneration, cyclic nucleotides, cGMP, phototransduction, postmortem survival, retina, human/rat 151

Eledoisin
lacrimal system, accessory lacrimal gland, orbital lacrimal gland, secretion, rabbit 273

Endocytosis
corneal endothelium, lectin binding, ferritin, rabbit 249

Endothelial cells
retina, blood vessels, choroidal endothelium, choroidal pericytes, choriocapillaris, age-related macular degeneration, bovine 631

Enkephalinase
substance P, miosis, atropine, thiorphan, rabbit 543

Enolase
lens, crystallins, avian, turtle 139

Epithelium
retinal pigment, rod outer segment, retina, swainsonine, phagocytosis, glycoproteins, rat 407

Experimental autoimmune uveitis
interphotoreceptor retinoid binding protein, retinal-S antigen, antibody, autoimmunity, uveoretinitis, rats 241
interphotoreceptor retinoid-binding protein (IRBP), synthetic peptides, cellular immunity, primates 193
interphotoreceptor retinoid-binding protein (IRBP), immunodominance of peptide determinants, immunogenicity, antigenicity, rat 95
IRBP, uveitis, auto-immunity, ELISA, human, bovine 1177
retinal S-antigen, *Klebsiella* 03 lipopolysaccharide (K03 LPS), mice 207

Eye growth
retina, visual deprivation, gliotoxin, α-aminoadipic acid, axial length, ON and OFF light response, chick 733

Fibroblasts
hexosaminidase, proliferation assay, colorimetry, Coulter counting, human 599

Forskolin
adenylate cyclase, ciliary processes, dopamine, clonidine, α_2-adrenergic receptors, aqueous humor formation, rabbit 111

G proteins
ciliary epithelium, non-pigmented/pigmented ciliary epithelial cells, cholera toxin, ADP-ribosylation, peptide-derived G protein antisera, human 493

Gap junctions
calcium, calmodulin, lens, rat 533
light damage, retina, Müller cell, photoreceptor degeneration, glial fibrillary acidic protein, astrocytes, rat 479

Glaucoma
carbonic anhydrase, intraocular pressure, MK-927, topical carbonic anhydrase inhibitor, glaucomatous monkey 163
intraocular pressure, carbonic anhydrase, carbonic anhydrase inhibitors, L-671, 152, MK-927, rabbit, monkey 607

Glutathione
cornea, cysteine metabolism, organ-cultured cornea, radioactive cysteine, HPLC, rat 883
lens, cataract, naphthalene, γ-glutamylcysteine synthetase, glutathione synthetase/peroxidase/reductase, HPLC, rat 45
lens, glutathione synthesis, HPLC, L-cysteine, cysteine uptake, rat 55
Glycoproteins
retinal pigment epithelium, cell surface glycoproteins, fucose, RCS rat, monkey 977
rod outer segments, retina, galactosyltransferase, galactose, N-acetylglucosamine, α-lactalbumin, bovine 987
Growth factors
aqueous humor, wound healing, transforming growth factor- α, human 963
cornea, DNA synthesis, FGF, corneal epithelium, cell proliferation, corneal cell culture, rabbit 429
corneal endothelium, wound healing, cornea, *in vivo*, cat 509
gene transcription, IGF-I, IGF-II, retina, rat 379
plasminogen activator, retinal pigment epithelium, insulin-like growth factor I, chemotaxis, human 323
retinal pigment epithelium, retina, ultrastructure, cycloheximide, bovine epithelium 617
wound healing, tears, epidermal growth factor, tear fluid, reflex tearing 79

Herpes simplex virus
cornea, iontophoresis, vanadate, latency, rabbit 1015
iontophoresis, latency, thymoxamine, corynanthine, mouse, rabbit 1007
keratitis, corneal epithelium, Epstein-Barr virus, cytomegalovirus, PCR, human 569

Immunological privilege
tolerance, anterior chamber, T suppressor cells 1141
Inflammation
cataract, vitrectomy, extraction, lensectomy, extracapsular lens, rabbit 1137
cornea, ageing, phagocytosis, inflammatory cells, mice 129
cornea, neutrophil chemotaxis, hydrogen peroxide, glucose oxidase, rabbit 839
cornea, neutrophil chemotaxis, UV-B irradiation, inflammatory mediators, rabbit 677
drug toxicity, povidone-iodine, intravitreal, polyvinylpyrrolidone, rabbit 725
uveitis, prostaglandins, ciliary epithelium, endotoxin, interleukin-1, tissue culture, bovine 501
Inositol phosphates
iris, inositol, 1,4,5-trisphosphate, iris sphincter membranes, radioligand binding 387
lens, cataract, myoinositol, hypergalactosemia, sugar cataract, cultured lens epithelial cells, bovine 561
Interphotoreceptor retinoid binding protein
experimental autoimmune uveitis (EAU), synthetic peptides, cellular immunity, primates 193
experimental autoimmune uveoretinitis (EAU), immunodominance of peptide determinants, immunogenicity, antigenicity, rat 95
retina, uveitis, monoclonal antibody, interstitial retinoid binding protein, immunohistochemistry 357
retinal-S antigen, experimental autoimmune uveitis, antibody, autoimmunity, uveoretinitis, rats 241
uveitis, autoimmune disease, auto-immunity, ELISA, human, bovine 1177
Intraocular pressure
aqueous humor formation, vasoactive intestinal polypeptide, α-adrenoceptor, uveoscleral outflow 863
glaucoma, carbonic anhydrase, carbonic anhydrase inhibitors, L-671, 152, MK-927, rabbit, monkey 607
glaucoma, carbonic anhydrase1, MK-927, topical carbonic anhydrase inhibitor, glaucomatous monkey 163
Iris
inositol phosphates, inositol, 1,4,5-trisphosphate, iris sphincter membranes, radioligand binding 387
Iris-ciliary body (see also ciliary processes)
angiotensin, norepinephrine, sympathetic nerves, rabbit 169

Keratitis
cornea, pneumococcus, PMN, virulence, complement, rabbit 1107
corneal epithelium, herpes simplex virus, Epstein-Barr virus, cytomegalovirus, PCR, human 569
Pseudomonas aeruginosa, contact lenses, infectious keratitis, hydrophobic interactions, contact lens surface deposits, enzyme cleaning of contact lenses 717

Lacrimal system
eledoisin, accessory lacrimal gland, orbital lacrimal gland, secretion, rabbit 273
immunology, lymphocytes, lymphocyte subset distribution, mucosal/non-mucosal tissue, rat 85
Laser
electroretinogram, retina, retinal photocoagulation, monkey 435
Lectin binding
corneal endothelium, endocytosis, ferritin, rabbit 249
retina, glycoconjugates, galactose, N- acetylgalactosamine, cones, rods, human 1195
retinal dystrophy, RCS rats, retina, interphotoreceptor matrix, development 687
Lens
aldose reductase, aldose reductase inhibitors, inhibition of sugar alcohol 421
calcium, calmodulin, gap junctions, rat 533
cataract, glutathione, naphthalene, γ-glutamylcysteine synthetase, glutathione synthetase/peroxidase/reductase, HPLC, rat 45
cataract, lens proteins, insolubilization, U18666A, rat 805
cataract, lens proteins, lens protein deamidation, human cataract 793
cataract, selenium, DNA, rat 1041
crystallins, alpha crystallin binding, lens membrane, bovine 259
crystallins, protein synthesis, α-crystallin, cell line, phosphorylation, transgenic 31
cytoskeleton, fiber cell, alpha-actinin, monoclonal antibodies, bovine 873
cytoskeleton, intermediate filaments, beaded filaments, lens proteins, bovine 1083
enolase, crystallins, avian, turtle 139
glutathione, glutathione synthesis, HPLC, L-cysteine, cysteine uptake, rat 55
inositol phosphates, cataract, myoinositol, hypergalactosemia, sugar cataract, cultured lens epithelial cells, bovine 561
lens epithelium, membrane transport and permeability, calcium, potassium, channels, patch clamp, chick 847
membrane protein, protein sequence, cDNA 955
membrane proteins, cataract, limited proteolysis, galactose, sugar cataract, lens plasma membranes, rat 225
myo-inositol, liquid chromatography, pulsed amperometry, lens epithelium 201
tryptophan, non-tryptophan fluorescence, front surface fluorescence, fluorescence, ageing, bovine, human 399
ultraviolet irradiation, cataract, protein synthesis, growth, lens epithelium, rabbit 1099
Lens epithelium
DNA, light damage, bacteriophage T4 endonuclease V, *E.coli* endonuclease III, UV-B, alkaline elution, cataract 1185
lens, membrane transport and permeability, calcium, potassium, channels, patch clamp, chick 847
Lens proteins
crystallins, lens protein structure, metabolite binding, molecular modelling, γ-crystallin structure, α- glycerophosphate, bovine 819
lens, cataract, insolubilization, U18666A, rat 805
lens, cataract, lens protein deamidation, human cataract 793
Light damage
lens epithelium, DNA, bacteriophage T4 endonuclease V, *E.coli* endonuclease III, UV-B, alkaline elution, cataract 1185
retina, gap junctions, Müller cell, photoreceptor degeneration, glial fibrillary acidic protein, astrocytes, rat 479
retina, retinal pigment epithelium, aortic endothelial cells, skin fibroblasts, photooxidation, retinopathy of prematurity, tissue culture 549

retinal degeneration, differential light sensitivity, type 1 light-induced retinal degeneration, albino rats 799
retinal pigment epithelium, retina, photoreceptor cell, outer nuclear layer thickness, intermittent/continuous light exposure, rat 11

Lipids
cornea, ^{31}P NMR, phospholipid 1167
cornea, neutral, glycosphingolipids, isolation, characterization, porcine 337

Lymphocytes
lacrimal system, immunology, lymphocyte subset distribution, mucosal/non-mucosal tissue, rat 85

Membrane protein
lens, cataract, limited proteolysis, galactose, sugar cataract, lens plasma membranes, rat 225
lens, protein sequence, cDNA 955

Membrane transport and permeability
ciliary epithelium, adrenergic pharmacology, intracellular electrical potential, microelectrode, rabbit 1
ciliary epithelium, bicarbonate, DIDS, electrical potential difference, rabbit 233
ciliary epithelium, malonate, intracellular potential difference, succinate, Na^+:K^+ pump, rabbit 787
corneal epithelium, lactate-proton cotransport, intracellular pH, rabbit 707
lens epithelium, lens, calcium, potassium, channels, patch clamp, chick 847
taurine, retina, calcium, taurine analogues, ATP- dependent calcium ion uptake, rat 1147

Miosis
enkephalinase, substance P, atropine, thiorphan, rabbit 543

Myo-inositol
inositol phosphates, lens, cataract, hypergalactosemia, sugar cataract, cultured lens epithelial cells, bovine 561
lens, liquid chromatography, pulsed amperometry, lens epithelium 201

Myopia
contrast sensitivity, spectacles, contact lenses 217
sclera, form-deprivation, chondrocytes, chick 1157

Neuropeptide Y
adenylate cyclase, ciliary processes, adrenergic receptors, aqueous humor formation, clonidine, forskolin, isoproterenol 121
cyclic AMP, ciliary processes, somatostatin, peptide receptors, adenylate cyclase, rabbit 371

Norepinephrine
angiotensin, iris-ciliary body, sympathetic nerves, rabbit 169

Optic nerve
taurine, immunocytochemistry, glial cells, rat 1115

Oxidative damage
corneal endothelium, antioxidants, vitamin E/C, alpha tocopherol, ultrastructure, isolated cornea, rabbit 103
retina, retinopathy, capillary ultrastructure, vitreous, neovascularization, microcirculation, cat 741

Photoreceptors
retina, cyclic GMP, cGMP-binding proteins, cGMP-phosphodiesterase, +/rd mice 643
retina, RCS rat, retinal detachment, photoreceptor rescue, outer nuclear layer 183
retinal pigment epithelium, retina, outer nuclear layer thickness, light damage, intermittent/continuous light exposure, rat 11
retinal pigment epithelium, retinal degeneration, retina, retinal vessels, urethane, morphometry, rats 1061

Plasminogen activator
retinal pigment epithelium, growth factors, insulin-like growth factor I, chemotaxis, human 323

Proliferative retinopathy
vitreous, macrophages, PVR, microspheres, half-life, rabbit 683

Prostaglandins
ciliary epithelium, blood-aqueous barrier, sympathetic nerves, α-adrenergic receptors, norepinephrine, fluorophotometry, rabbit 927
uveitis, ciliary epithelium, inflammation, endotoxin, interleukin-1, tissue culture, bovine 501

Proteoglycans
cell culture, collagen, glycosaminoglycans, microvascular endothelial cells, extracellular matrix, basement/epiretinal membrane, retinal pigment/lens epithelial cells 307
cornea, macular corneal dystrophy, collagen, synchrotron X-ray diffraction, human 393

Pseudomonas aeruginosa
contact lenses, keratitis, infectious keratitis, hydrophobic interactions, contact lens surface deposits, enzyme cleaning of contact lenses 717

RCS rat
lectin binding, retinal dystrophy, retina, interphotoreceptor matrix, development 687
retina, photoreceptors, retinal detachment, photoreceptor rescue, outer nuclear layer 183

Refraction
accommodation, macaca mulatta, macaca fascicularis, anesthesia, tonic accommodation, monkey 525

Retina
blood flow, retinal pathology, choroidal blood flow, Müller cells, GFAP, Edinger-Westphal, pigeon 583
blood vessels, vasculature, retinal development, spindle cells, endothelium, astrocytes, kitten 459
blood-retinal barrier, diabetes, vitreous humor, mannitol, para-aminophippuric acid, rat 827
dopamine, electrophysiology, light peak, standing potential, EOG, chicken 1077
electroretinogram, laser, retinal photocoagulation, monkey 435
endothelial cells, blood vessels, choroidal endothelium, choroidal pericytes, choriocapillaris, age-related macular degeneration, bovine 631
eye growth, visual deprivation, gliotoxin, α- aminoadipic acid, axial length, ON and OFF light response, chick 733
lectin binding, glycoconjugates, galactose, N- acetylgalactosamine, cones, rods, human 1195
lectin binding, retinal dystrophy, RCS rats, interphotoreceptor matrix, development 687
light damage, gap junctions, Müller cell, photoreceptor degeneration, glial fibrillary acidic protein, astrocytes, rat 479
light damage, retinal pigment epithelium, aortic endothelial cells, skin fibroblasts, photooxidation, retinopathy of prematurity, tissue culture 549
oxidative damage, retinopathy, capillary ultrastructure, vitreous, neovascularization, microcirculation, cat 741
photoreceptors, cyclic GMP, cGMP-binding proteins, cGMP-phosphodiesterase, +/rd mice 643
photoreceptors, RCS rat, retinal detachment, photoreceptor rescue, outer nuclear layer 183
photoreceptors, retinal pigment epithelium, retinal degeneration, retinal vessels, urethane, morphometry, rats 1061
S-antigen, retinal degeneration, *rds* gene, photoreceptors, mouse 903
retinal pigment, epithelium, rod outer segment, swainsonine, phagocytosis, glycoproteins, rat 407
retinal pigment epithelium, electroretinogram, hemicholinium-3, outer segment loss, rabbit 669
retinal pigment epithelium, growth factors, ultrastructure, cycloheximide, bovine epithelium 617
retinal pigment epithelium, photoreceptor cell, outer nuclear layer thickness, light damage, intermittent/continuous light exposure, rat 11
retinal pigment epithelium, rod outer segment, phagocytosis, glycosaminoglycans, chondroitin sulphate, interphotoreceptor matrix, photoreceptor outer segment 65
rhodopsin, retinal pigment epithelium, extraction, spectra, human 1211
rod outer segments, glycoproteins, galactosyltransferase, galactose, N-acetylglucosamine, α-lactalbumin, bovine 987
taurine, membrane transport and permeability, calcium, taurine analogues, ATP-dependent calcium ion uptake, rat 1147
uveitis, IRBP, monoclonal antibody, interstitial retinoid binding protein, immunohistochemistry 357

Retinal degeneration
light damage, differential light sensitivity, type 1 light-induced retinal degeneration, albino rats 799
photoreceptors, retinal pigment epithelium, retina, retinal vessels, urethane, morphometry, rats 1061
retina, S-antigen, *rds* gene, photoreceptors, mouse 903
Retinal detachment
retina, photoreceptors, RCS rat, photoreceptor rescue, outer nuclear layer 183
Retinal dystrophy
lectin binding, RCS rats, retina, interphotoreceptor matrix, development 687
Retinal pigment epithelium
electroretinogram, retina, hemicholinium-3, outer segment loss, rabbit 669
glycoproteins, cell surface glycoproteins, fucose, RCS rat, monkey 977
growth factors, retina, ultrastructure, cycloheximide, bovine epithelium 617
light damage, retina, aortic endothelial cells, skin fibroblasts, photooxidation, retinopathy of prematurity, tissue culture 549
photoreceptors, retinal degeneration, retina, retinal vessels, urethane, morphometry, rats 1061
plasminogen activator, growth factors, insulin-like growth factor I, chemotaxis, human 323
retina, photoreceptor cell, outer nuclear layer thickness, light damage, intermittent/continuous light exposure, rat 11
retina, rod outer segment, phagocytosis, glycosaminoglycans, chondroitin sulphate, interphotoreceptor matrix, photoreceptor outer segment 65
rhodopsin, retina, extraction, spectra, human 1211
rod outer segment, retina, swainsonine, phagocytosis, glycoproteins, rat 407
Retinal S-antigen
experimental autoimmune uveoretinitis, *Klebsiella* 03 lipopolysaccharide (K03 LPS), mice 207
interphotoreceptor retinoid binding protein, experimental autoimmune uveitis, antibody, autoimmunity, uveoretinitis, rats 241
retina, retinal, retinal degeneration, *rds* gene, photoreceptors, mouse 903
S-antigen, retinal degeneration, *rds* gene, photoreceptors, mouse 903
uveitis, monoclonal antibody, cDNA, synthetic peptides, fusion protein, immunohistochemistry 343
Retinoids
cornea, morphology, thymidine, stroma, DNA synthesis, rabbit 1121
Retinopathy
retina, oxidative damage, capillary ultrastructure, vitreous, neovascularization, microcirculation, cat 741
Rhodopsin
retina, retinal pigment epithelium, extraction, spectra, human 1211
Rhodopsin regeneration
electroretinogram, cyclic nucleotides, cGMP, phototransduction, postmortem survival, retina, human/rat 151
Rod outer segment
retina, glycoproteins, galactosyltransferase, galactose, N-acetylglucosamine, α-lactalbumin, bovine 987
retinal pigment epithelium, retina, swainsonine, phagocytosis, glycoproteins, rat 407
retinal pigment epithelium, retina, phagocytosis, glycosaminoglycans, chondroitin sulphate, interphotoreceptor matrix, photoreceptor outer segment 65

Sclera
myopia, form-deprivation, chondrocytes, chick 1157
Selenium
lens, cataract, DNA, rat 1041
Stress proteins
corneal epithelium, heat shock protein, hyperthermia, immunocytochemistry, in situ hybridization, rat 913
Substance P
enkephalinase, miosis, atropine, thiorphan, rabbit 543

Taurine
optic nerve, immunocytochemistry, glial cells, rat 1115
retina, membrane transport and permeability, calcium, taurine analogues, ATP-dependent calcium ion uptake, rat 1147
Tears
drug delivery, gelling vehicle, Gelrite™, hydroxyethylcellulose, gamma scintigraphy, precorneal residence, human/rabbit 415
secretory component, sIgM, sIgA, human 997
wound healing, growth factors, epidermal growth factor, tear fluid, reflex tearing 79
Trabecular meshwork
glycosaminoglycans, organ culture, cell culture, glaucoma, human 363
Tryptophan
lens, non-tryptophan fluorescence, front surface fluorescence, fluorescence, ageing, bovine, human 399
Tumors
photocoagulation, hyperthermia, near infrared light, Greene's hamster melanoma, rabbit 771

Ultraviolet irradiation
lens, cataract, protein synthesis, growth, lens epithelium, rabbit 1099
vitreous humor, liquefaction, aphakic eye, fluorescence/fluorescence polarization, circular dichroism, photosensitizer, human 487
Uveitis
IRBP, autoimmune disease, auto-immunity, ELISA, human, bovine 1177
prostaglandins, ciliary epithelium, inflammation, endotoxin, interleukin-1, tissue culture, bovine 501
retina, IRBP, monoclonal antibody, interstitial retinoid binding protein, immunohistochemistry 357
retinal S-antigen, monoclonal antibody, cDNA, synthetic peptides, fusion protein, immunohistochemistry 343

Vasoactive intestinal polypeptide
aqueous humor formation, intraocular pressure, α-adrenoceptor, uveoscleral outflow 863
chromatography, eye, guinea pig, Rhesus monkey 287
Visual deprivation
retina, eye growth, gliotoxin, α-aminoadipic acid, axial length, ON and OFF light response, chick 733
Vitreous
proliferative retinopathy, macrophages, PVR, microspheres, half-life, rabbit 683
ultraviolet irradiation, liquefaction, aphakic eye, fluorescence/fluorescence polarization, circular dichroism, photosensitizer, human 487

Wound healing
aqueous humor, growth factors, transforming growth factor-α, human 963
calpain, calpastatin, corneal epithelium, cornea, rabbit 39
corneal endothelium, endothelial permeability, P_{ac}, feline 1129
corneal endothelium, growth factors, cornea, *in vivo*, cat 509
corneal epithelium, antibiotics, tobramycin, gentamicin, ofloxacin, tissue culture, rabbit 277
cytoskeleton, cornea, electric field, corneal stroma, fibroblasts, cell migration, rabbit 893
growth factors, tears, epidermal growth factor, tear fluid, reflex tearing 79
